DESCRIPTION

Industrial reader for the toughest environments

The PowerScan series of barcode readers is characterised by super strong devices with high reading capabilities. The **PowerScan PM9501 2D scanner** is a cordless model and incorporates Datalogic's STAR Cordless System narrow band radio technology.

It is defined by an ergonomic design, incredible scanning speed and multi-interface functionality. The PowerScan PM9501 can be used in both manual scanning mode and presentation mode with Datalogic's **Motionix motion detection technology**.

TECHNICAL SPECIFICATIONS

Sensor type: laser

Dimensions: 212x110x74 mm

Weight: 400 g

Codes: 1D: GS1 DataBar; 2D: Aztec Code, Data Matrix, Han Xin, MaxiCode, Micro QR Code, QR Code

Operating distance: 6 cm

Interfaces: RS-232, RS-485, USB

Power consumption: 500 mA

Battery capacity: 3350 mAh

Battery life: 4.5 h

IP65
